INDUSTRIAL PROCESSES part 1

Metal processes

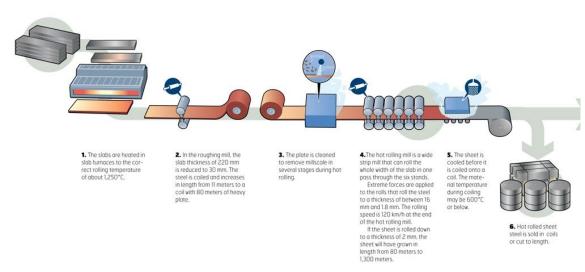

http://www2.cslaval.qc.ca/cdp/UserFiles/File/previews/indusprocesses/

1. Give a definition of manufacturing process :

2. Give a definition of **metal forming**:

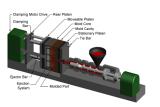

3. What does rolling produce?

4.	Give a definition of wire drawing:	
5.	Give a definition of metal spinning :	
6.	Give a definition of bending :	STRETCH BENDING TUBE————————————————————————————————————
7.	Give a definition of folding :	Hems Any-angle bends Rolled edges Rolled in the state of the state
8.	Give a definition of shaping :	Part Description * Tool Description * Tool Description * Tool Description * Bread Dalling Part. * Bread Dalling Part. * Bread Dalling Part. * Conserved Libror Fram. * Conserved Li

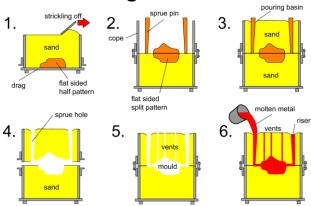

9. Give a definition of forging :		
10. Give a definition of stamping :		
11. Give a definition of Extrusion :		
12. Give a definition of sintering :		

13. Give a definition of **injection moulding**:

14. Give a definition of sand moulding:

Sand Casting suitable for steel or aluminium

15. Give a definition of wax moulding:
